Zen Cylinders Manufacturing Co. Ltd.

Our Integrated Management System policy

Top Management is committed to an Integrated Management System (IMS) that delivers safe, reliable products, protects the environment and keeps our people safe. **We commit to:**

01 Meet customer requirements and applicable product standards through controlled processes, inspection and testing.

02 Provide safe and healthy working conditions, eliminate hazards and reduce health and safety risks to prevent work-related injury and ill health.

03 Protect the environment, including preventing pollution and managing waste and resources responsibly.

04 Fulfil all applicable legal, regulatory and other compliance obligations.

05 Consult and involve our workers in health and safety decisions.

06 Set measurable quality, environmental and health and safety objectives, and review our performance against them.

07 Continually improve the effectiveness of our IMS.

This policy is communicated throughout our organisation and reviewed regularly. Summary of the full IMS policy, document no. ZEN/IMS/PO/003, available on request or via download from our website.
